

CSG meeting notes
July 27, 2011

Can I pdf the Clean Energy presentation?
Send Jim Norris Mark and Will's information
Send attendees the 'Summer 2011' sheet

Attendees

Jim Norris
Howard Harris
Catherine Crewson
Adrian Acuna
Jim Cole
Dave Navey
Marcie Smith
Jason Wager
Larry Lane
Ron Smith
Greg Johnson
Roger Cable
Johnny Wear
Kevin Frasz
Bob Fritts
Marguerite Arnold
Taquita Grisson
Kevin Grant
Mark Morefield
Daniel Nuckolls
Brian Kasher
Jason Wager
Emily Parker

Breakfast, Welcome, and Introductions

Clean Energy Fuels Presentation and Q&A

(JW guiding this piece)

Roundtable piece, as it relates to CNG

Daniel Nuckolls – haven't really gotten into CNG. Have space needs study happening – could result in moving fueling infrastructure. If that happens, perhaps.

Mark Morefield (International) – here for info gathering/learning curve. As a manufacturer, need to get into it.

Kevin Grant – on a fact finding mission. Small fleets in Cab County – perhaps joining up with multiple fleets to have one fueling station. Going HEV route at this point. All about the good mix – with the goal of getting off of imported oil.

(Out of the room)

Bob Fritts – send him a thanks for coming email and the Business Case for CNG document and a link to join as a stakeholder.

Kevin Frasz – giving updates on GM vehicles

Ron Smith – NAT GAS Act mentioned. Bill board. Represents pipeline people.

Roger Cable – Gastonia CNG pioneers. If you get into the program, need to DO IT. They've had a bad experience. He could provide lessons learned. He wants the opportunity to start again.

Greg Johnson – Talk to him about PNG's fleet vehicles for 2011 survey purposes. Prep him/let him know to start thinking about it.

Jim Cole – send PSNC 2011 Survey. Send them the link to join. Wants to come meet with Kevin, Dan, Roger, etc.

(Opportunity presented for Dan, Kevin, and Jim to all meet together)

Very common theme/connector is energy security. Start the energy security subgroup (Roger, Marcie, at least)

Dave Navey speaking from experience about why CNG is good. Dave is a good facilitator for

Catherine Crewson – United Rentals does not centrally fuel. Set up meeting with her. UR might not be a good fit for CNG. UR does have a sustainability initiative.

Wrap up.
