Meeting Notes

After the welcome, introductions, roundtable and networking breakfast – the majority of this meeting was dedicated to Marcie Smith, Director of Gaston County Solid Waste & Recycling, to present her DOE Waste-to-Wheels conference-based white paper titled, *Refuse Derived Fuel: Opportunities and Challenges for the Greater Charlotte Region*. This white paper could benefit the region's solid waste and recycling coordinators, so therefore, we invited that audience to join this Core Stakeholder Group meeting as guests.

After Marcie's presentation and brief Q&A, the meeting adjourned.
